

QUICKDRAIN

USA™

PROLINE

The leader in linear
DRAIN CUSTOMIZATION.

A more sophisticated shower solution.

Design is an integral part of the QuickDrain experience. Elegance and performance working together in tandem, a seamless blend of style and engineering.

More than a linear drain, QuickDrain is a sophisticated curbed or curbless total shower solution, full of refined detail.

Experience. Design. Authenticity. Quality.

Beautiful design is one thing. Pairing it with superior performance is another. Every engineering and design choice was intended to make QuickDrain as efficient as it is appealing.

Cost-effective. Efficient. And ideal for Universal Design.

ProLine delivers a new level of flexibility in linear drains. With a variety of drain waste outlet location options and a customizable drain body, ProLine is the ideal choice for construction jobs that involve specification requirements, including healthcare facilities or hospitality where PVC is not allowed.

SPEC-FOCUSED

Engineered to meet rigorous specification requirements.

FLEXIBLE

Multiple outlet configurations and adjustable height for different tile thicknesses.

HEALTHCARE APPLICATION

316L marine grade stainless steel body paired with an ADA compliant cover are ideal for hospitals and assisted living.

Performance in curbless...

When QuickDrain is installed with a curbless entrance, it creates an easy, seamless transition from dry to wet areas in the bathroom.

Universal Design & ADA Compliance

The roll-in shower is a hallmark of universal design, making the shower easily accessible to all ages and abilities in accordance with the Americans with Disabilities Act. It also provides a clean and expansive look, from traditional to modern aesthetics.

Improved Hygiene

A curbless QuickDrain shower can be designed with larger format tiles, reducing the number of grout joints and seams where mold, mildew and grime can take hold.

Flooring Options

There are nearly limitless design options, as QuickDrain makes it possible to use nearly any imaginable finish or flooring material.

○ and curbed showers.

Shower curbs serve as the barrier between the shower pan and the rest of the bathroom floor. QuickDrain can offer an attractive solution in these scenarios.

Versatile

With QuickDrain, there's no need to move plumbing or adjust the shower pan. QuickDrain can adapt to almost any existing plumbing condition.

Showers Without an ADA Requirement

When wheelchair accessibility is not necessary, QuickDrain installations with a curbed shower can give a bathroom a sense of separation from the rest of the room and help visually frame the shower area.

Flexible Orientation

QuickDrain can be placed in any orientation in the shower, just as long as it runs from wall to wall to effectively promote water drainage.

Simple installation. Wall-to-wall coverage.

One plane. No errors.

Instead of a four-way compound slope toward the drain, the QuickDrain shower system requires only a one-directional slope. This improves drainage, giving water one uniform path toward the drain, minimizing installation errors.

All in a matter of hours.

Projects with a traditional mud bed and pan liner application require a minimum of two days of construction, waiting for mortar to set. The QuickSlope panel system can be completely installed in less than one day.

Less labor.

The QuickDrain system allows installers to move on to the next job quickly. The pre-sloped PET panels eliminate the need to float a pitched mud bed and wait for it to cure, saving big on labor cost.

Adjustable height.

Stackable spacers mean installers can easily adjust the drain cover after installation to ensure the cover is flush with the floor.

Adjustable length.

Trough extensions and covers can be trimmed at the jobsite after the body is installed, providing wall-to-wall coverage.

Versatility.

QuickDrain can be installed by connecting to the drain waste line or used with a traditional 2-piece clamping collar drain body.

The most complete linear drain system.

QuickDrain is a complete shower system that reimagines how a linear drain should perform and be installed. QuickDrain slashes construction time, saves on cost and minimizes impact on customers.

Example of ADA (Curbless) Installation Using ProLine Drain with Liquid Waterproofing

Complete Water Evacuation

Whereas a traditional center drain requires a custom slope from a variety of directions, QuickDrain is situated parallel to the shower entry, creating a single flat surface, with stable and consistent flooring. And, the drain sits shallow enough in the subfloor, eliminating the need to recess the entire shower floor.

Most importantly, QuickDrain's QuickFlow System creates wall-to-wall coverage and promotes the effective and efficient drainage of water.

PROLINE

Custom drains for any installation.

MICHAEL GRAVESTM DESIGN

In collaboration with world-renowned designer Michael Graves, known for creating enduring, deeply human design solutions, we are proud to offer two captivating cover designs exclusive to QuickDrain: Stream & Cosmo.

Ordering ProLine is fast & simple.

When you're ready, you'll contact your local QuickDrain USA dealer to place your order.

To make the ordering process seamless, complete the following simple steps to guide you through the process:

- 1 Verify structural integrity within shower footprint (level sub-floor and square framing).
- 2 Sketch the desired shower layout with measurements – include drain location and sub-floor material.
- 3 ProLine Selection - Choose the following:
 - a. Drain Body Length - according to what will fit into the space.
 - b. Waste Outlet - vertical or side (horizontal) waste outlet configuration.
 - c. For non-standard sizes, multi-waste outlets and more, QuickDrain can help you customize a drain body. Lead times will apply. Please contact us at info@quickdrainusa.com.
- 4 Select Drain Cover and/or Finish
- 5 Select Waterproofing Option (see chart on page 9)
 - a. Waterproofing Accessories - ProLine assembly kits include standard liquid waterproofing accessories necessary for a four-sided curbed or curbless application. Additional accessories can be purchased separately. The actual liquid will be supplied by the installer.
- 6 To make installation even easier, consider QuickDrain QuickSlope PET panels, available for both curbed and curbless applications.

Visit QuickDrainUSA.com for helpful information.

Technical Support & Job Site Assistance

Our team is able to provide expert on-site instruction and support. We also help by providing early design drawings to get your project started off right.

Commitment to community.

As part of our commitment to minimize our environmental footprint, we use 100% recycled plastic bottles (Polyethylene Terephthalate or PET) to manufacture our QuickSlope shower panels. These non-reactive, economical and shatterproof parts do not degrade over time and perform even under the toughest conditions at 145 PSI.

If you're looking to obtain LEED certification for your next project, please contact a QuickDrain representative to hear about our selection of environmentally conscious products, which may qualify for LEED points.

13 million+ Plastic Bottles Recycled

For every QuickDrain shower panel installed, 450 plastic bottles are saved from landfills – 13 million bottles and counting.

100% RECYCLED PLASTIC.

About QuickDrain USA and Oatey

Part of the Oatey family of brands, QuickDrain USA is a premier manufacturer of curbless and curbed shower solutions for showers and wet areas. Since 1916, Oatey has provided reliable, high-quality products for the residential and commercial plumbing industries. Today, Oatey operates a comprehensive manufacturing and distribution network to supply more than 6,000 products for professional builders, contractors, engineers and do-it-yourself consumers around the world. The company has successfully met customer needs for more than a century by offering innovative plumbing solutions that deliver results the first time. All Oatey products and brands are backed with the highest-quality technical and customer support programs in the industry.

POWER OF ONE

#1 in the industry. Oatey® is the number one source for purchasing the leading brands in the plumbing and home improvement industries.

One call does it all. Only Oatey brings you the plumbing industry's best brands in one source. Making it easy to purchase any product across all our brands on one invoice, in one shipment.
